*Title 37. Code of Federal Regulations, § 1.56:

(a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent (a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent (a) A patent by its very nature is affected with a being examined, the Office is aware of and evaluates the reachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of information material to patentability and Trademark Office, which includes a duty to disclose to the Office all information in the chart individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to such pending claim until the claim is canceled or withdrawn from consideration, or the application becomes abundoned.

(b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and (1) is establishes, by inself or in combination with other information. a prima facia case of unpatentability; or (2) it refutes, or is inconsistent with, a position the applicant takes in: (i) opposing an argument of unpatentability relied on by the Office; or (ii) asserting an argument of patentability.
